"Start Mines, Resume Conferences," Harding Edict

OTHERWISE GOVERNMENT WILL RESORT TO METHOD WHICH WILL PROTECT THE PUBLIC AND FORCE FULL SETTLEMENT

Suggests A Resumption Of Mining Industry At Once, Then A Secret Conference With Ogle Presiding, Greene As Secretary And Three Cabinet Members Present.

SPEECH SHORT AND TO THE POINT

Washington, D. C., July 1.—President Harding today called upon the striking miners and the coal operators of the country to resume mining operations at once and then adjust their differences in general conferences.

Speaking before about fifty chieftains of the United Mine Workers of America and leading coal operators at the White House, the President issued an emphatic warning to the warring factions that unless the strike is soon terminated the Federal Government, in the public interest, will exert all its vast powers to force a settlement.

Settlement Must Be Permanent.

The President said that the interests of the people must be protected and that the Government proposes to take steps toward that end unless the strike is ended through general conferences. Harding also declared that a permanent solution of the frequent strikes in the industrial world must be found. "For has the right, capital has the right and above all else the American public has the right to be freed from these recurring anxieties, no matter what the causes are," said the President. The President made an appeal that operations be resumed pending adjustment of the dispute.

Plan Of Conference Suggested.

The President suggested that future mine and operator conferences be held in secret, stating that he would assume full responsibility for such a course. He also suggested that the conferences be held at the Department of the Interior, that A. M. Ogle, President of the National Coal Association, should preside as Chairman, and that William Greene, of the United Mine Workers, should act as Secretary, also that Secretaries Hoover, Fall and Davis should sit in the conferences as representatives of the Government.

EXCEPTIONAL RACE CARD OFFERED FOR TRACK FANS HERE

An exceptional race program has been arranged for Clearfield's Biggest Fourth and although time for entries does not close until Monday July 3 at 6 P. M. more horses will start in each race than has been seen in races at Clearfield in many a day. The Legion has made every endeavor to get the best horses in Clearfield on the Fourth and a survey of the list of entries to date shows they have been very successful.

The races will be called at 1:45 P. M. sharp and include a 222 trot, a 225 pace and a special 3-year old class mixed. The last race has been added since the publication of the original program and promises to be very interesting.

Union Trotting Association rules will be in force. W. T. A. Official starter D. D. Guppy will tell 'em when to go; and the other officials are as follows: A. L. Kline, Fred B. Leavy and James Fletcher, Judges; L. E. Jameson and L. A. Banta, Timekeepers.

LIGHTNING HITS AUTOMOBILE

During an electrical storm which passed over the Houtzdale region about 2 o'clock this afternoon lightning struck the steering wheel of a Reo automobile belonging to the Beal Garage at Philipsburg while the car was traveling the State Road near Sterling between Osceola and Houtzdale. The bolt hit the steering wheel of the car burning the arm of the driver and setting fire to the car which was totally destroyed despite the efforts of the Houtzdale Fire Co. to save it.

M'DEVITT NAMED PHILA. JUDGE BY GOVERNOR SPROUL

Harry S. McDevitt, secretary to Governor Sproul was appointed yesterday by the Governor to fill the vacancy on the bench of Common Pleas Court No. 1 caused by the resignation of Judge John M. Patterson. The Governor announced Mr. McDevitt's appointment at Harrisburg. At the same time he announced that he had appointed James F. McCoy, a former newspaper man of this city, as his secretary to succeed McDevitt. Mr. Sproul said he had also commissioned Judge William H. Shoemaker, senior member of Common Pleas Court No. 1, as President Judge of that Court. Mr. McDevitt was born in Philadelphia April 17, 1885. He will be one of the youngest judges in the Philadelphia Courts. He was graduated from the Central High School in 1905. After leaving the high school he engaged in newspaper work until 1913, when he was admitted to the bar. He had studied law while pursuing his reportorial duties. Mr. McDevitt had been a political

Shopcraft Strike Is On!

REPORTS FROM SCATTERED POINTS INDICATE STRIKE IS GENERAL ON TRANSPORTATION LINES OF NATION

Pennsylvania Men, Because Of Agreements Made Direct With Them, Do Not Quit Posts As Others Do—Congestion Is Noticed Most In New York City.

TOO EARLY FOR ACCURATE FIGURES

The strike of 400,000 railway shop men got under way today when many employees remained away from their jobs in advance of the official hour set for the walk-out, ten o'clock A. M.

Eleventh hour efforts of the United States Railway Labor Board failed to avert the strike. A number of railroad shops were ordered closed today, including the Pullman Shops at Pullman, Illinois.

The shop men's grievance is based upon the wage cuts ordered by the Labor Board, eliminating of overtime for Sundays and holidays and the action of the railroads in trying to evade Labor Board orders favorable to the workers.

The great Pullman Shops in South Chicago, employing normally 10,000 men, were operating this morning with only a few men.

LOCAL MEN OUT

The boiler makers, machinists and their helpers in the local New York Central Yards, walked out this morning in accordance with the general strike order. On account of the slack industrial conditions here incident to the coal strike, but about thirty-five men were directly affected by the walk-out the remainder of the shops force having been laid off previously. The strike locally is 100 per cent effective.

Effective at Pittsburgh

Pittsburgh, Pa., July 1.—The railroad shopmen's strike was generally effective in and around Pittsburgh today. Five thousand men left their posts. The B. & O. Glenwood shop went down 100%, 2,500 men going out. At the Fort Wayne shops of the Pennsylvania every union man left his work. The Pittsburg shop of the Pennsylvania went down 90%. The Hook shops of the P. & W. Va., also went down 100%.

On the other hand few men left the McKees Rocks shops of the P. & L. E. employees there claiming they are members of the American Federation of Railroad Workers, an independent organization, and that they do not consider themselves bound by the strike call. In a statement today the Pennsylvania Railroad Company announced that the strike was effective in Canton, Ohio, Erie and Oil City, Pa., Olean and Buffalo, N. Y.

Scranton Men Out

Scranton, Pa., July 1.—Shop men employed by the Lackawanna Railroad in this city complied with the strike order today. 1,800 men are affected by the walk-out in this section.

Only 35 Out at Altoona

Altoona, Pa., July 1.—Thirty-five men in the shops of this district walked out here today. It is expected that others will follow, but it is impossible to classify them today. It is not thought that the shops here will be hampered by the walk-out on account of working agreements between the Pennsylvania Railroad and its employees.

Conemaugh One Third Out

Johnstown, Pa., July 1.—Only fifty-six men out of the two hundred and sixty shop men employ in the Conemaugh shops responded to the strike call this morning and only two men on the South Fork Branch went out on the South Fork Branch went out.

Chicago Hardest Hit

Chicago, Ill., July 1.—400,000 rail-

road shop workers were added to the nation's unemployed today when they went on strike against wage reductions.

Promptly on the stroke of ten workers dropped their tools. All shops in Chicago, the largest strike center in the country were closed. 100,000 men it was estimated by union heads, went on strike here. Guards appeared as the men left their work and were prepared to protect railroad property.

New York Congested

New York, N. Y., July 1.—The railroad strike today caused great congestion in the big New York railway terminals. Through trains were not affected but suburban traffic was disrupted as there were no men on hand to couple up the cars. Dense crowds of people trying to get out of town for the week-end jammed the Grand Central Station.

Albany Reports

Albany, N. Y., July 1.—The strike of the railroad shops craft men got under way here today when a number of the mechanics in the round house of the New York Central dropped their tools and walked out.

Pittsburgh B. & O. Out

Pittsburgh, Pa., July 1.—2,500 employees of the Glenwood shops of the B. & O. railroad joined the nationwide shopmen's strike today.

Philadelphia Not Hit

Philadelphia, Pa., July 1.—Twenty car cleaners who laid down their tools in the West Philadelphia yards are the only ones that answered to the strike call on the Pennsylvania here, it was announced. Their places were immediately filled. Officials are doubtful as to the number that will go out during the day.

At Harrisburg

Harrisburg, July 1.—Eighty-five per cent of the union shopmen in the Harrisburg district dropped their tools in response to the strike call, according to the count of union leaders here. There are some 3,000 men involved in this district which includes shops at Enola, Marysville, Harrisburg, Rutherford and Lancaster.

Columbus Men March

Columbus, Ohio, July 1.—Three thousand shop workers of the Pennsylvania and Hoeking Valley Railroads laid down their tools and marched through the business district of Columbus to headquarters.

Lansdale, Pa., July 1.—"Dick", a huge mastiff was snatched from death today. "Dick" was convicted of a crime, which carried the death penalty. His master, James Silverman, who is a Russian, had never been naturalized and under the laws of the State of Pennsylvania aliens are not allowed to keep dogs. S. Confer, Dick's attorney, made a plea before Magistrate Borsay today for Dick's life, asking that the law be set aside in this case and the dog is enjoying a respite at least until a decision in the case is handed down.

MEN'S BIBLE CLASS OF WEST SIDE HOLD BANQUET AT CAMP

The Men's Bible Class of the West Side Methodist church, with their wives and invited guests to the total number of one hundred and seventy-four persons, held its monthly meeting at the handsome and commodious Crystal Springs camp last evening. Weather conditions were ideal, and aside from the fact that the road was like the Road to Jordan—a hard one to travel—nothing was lacking to make the evening one of genuine pleasure and enjoyment.

Camp Chief Weed and his estimable wife, with the assistance of a competent committee of local women provided a most appetizing dinner for the assemblage, each and every one of which did ample justice to the good things set before them.

When the inner man had been thoroughly satisfied, Rev. Armstrong who was the busiest man at the gathering, marshaled the crowd into the spacious lobby and soon had the business meeting under way. Rev. Armstrong read the report for the month, which made a fine showing for the Class stating that no less than six members of the class had attended every session thus far during 1922.

At the completion of the business session Rev. Armstrong announced a brief program of exercises which was opened by Victor K. Meredith with a pleasing solo, with Miss Myra Shaw at the piano. Mr. Meredith acknowledged a vociferous encore with the "Swanee River," which was also very highly appreciated by his hearers.

J. D. Connelly, a guest of the class, was impressed into service and delivered a brief address in which he spoke of the activities of this class and the great good they had accomplished in the community.

Prof. Oscar W. Schaeffer's orchestra, a West Side church institution, then favored with a pretty selection, after which a pair of Gold Dust twins in the persons of Messrs Flaherty and Johnson put on a really worth while black face comedy sketch which was very well received and added new laurels to the reputation of these very capable performers.

A selection by the orchestra brought the program to a close and the party embarked in their automobiles for the ten mile ride over the mountains back to their homes.

It was indeed an enjoyable occasion and very much enjoyed by those fortunate enough to be present.

MANAGER GIBSON RESIGNS

Manager George Gibson of the Pittsburgh Pirates, since 1920 unexpectedly announced his resignation to his players yesterday afternoon after having lost an important series of games which it is said brought criticism from President Dreyfuss of the Pirates. William McKechnie, assistant manager was immediately advanced to Gibby's post.

FIRST BIG EVENT FOR TUESDAY IS THE STREET PARADE WHICH WILL MOVE OVER PRINCIPAL STREETS PROMPTLY AT TEN

From That Time On There Will Be Something Doing Every Minute Of The Day Until A Late Hour In The Evening—Come Early And Stay Late To Enjoy Biggest Fourth Of July.

EIGHT BANDS WILL BE IN LINE ALL DAY

Windy Smith and Hank Cole aviators arrived here this morning and while calling at The Progress office announced that they were ready to take passengers on flights this evening, all day tomorrow and Monday. The round trip flight is \$11. Call at the "Howstew" Aviation Field on the old Roessner farm. A percentage of the receipts go to the American Legion.

One glance at the double page spread advertisement of the American Legion in yesterday's Progress was enough to satisfy most anybody that this energetic organization means business next Tuesday when they expect to furnish Independence Day fun for all comers. From 7:30 o'clock in the morning until nearly midnight there will be something doing every minute. At the aforesaid hour, the American Legion rooms here will be thrown open as celebration headquarters and a happy reunion of ex-service men will take place from that hour until ten o'clock. In the meantime, no less than fifty business firms will be putting the finishing touches on the most wonderful floats ever seen on parade here and dashing military men will be galloping un and down streets whipping the big parade into line.

Paternal organization men will be out spick and span in uniform and regalia and bands will be blaring and trumpeting on all the principal streets.

When the town clock strikes ten there is no question but that the parade will be ready to move over the principal streets and then to the park where the big attractions are being prepared. The parade will be a revelation and, although many say it will be impossible to surpass the efforts of last year, those who have been privileged to see the preparations being made declare that they're a doin' it.

Three of the things that are contributing a great deal to the interest in the parade are the hand some cups to be awarded as prizes. These cups are massive creations of silver and well awarded as prizes. One is for the most artistic float, one for the best advertising effort and one for the best fraternal organization in line. Bands in line, and these are what make a parade, are the Gommian Band, Winbunne Lib. Band, Blain City Olympic Band, Philadelphia Marine Band, Houtzdale Band, Clearfield Italian Band, Clearfield Sewer Pipe Band and Clearfield American Legion Band. What a lineup. Concert of the time until six o'clock.

It is expected that the parade will be over by noon so that those who wish to basket picnic at the park can do so until one o'clock when the great fun and excitement begins. Promptly at one o'clock the athletic events dashes, jumps, etc. will take place while at 1:30 "Hank" Cole and "Windy" Smith, daredevil aviators will take to the air, doing several stunts never before seen here. Then aviators have been seen in the Bois for a week or so, and they frighten the natives nearly put on their wits with the stunts over town but they are saying up the line for Clearfield. Such stunts as were dug out on the wings of the plane while it is flying through the air and a few other fly like a dream. Remember they go on promptly at 1:30 so get there early.

Races scheduled for 1:45 and 2:00 p.m. Race, purse \$200 with entries 2:22 class, 100 yds. with five entries to date. Races for three year olds, 100 yds. with four entries to date. Best three out of five heats.

At two o'clock there will be communication with the outside world by means of radio with correct baseball scores as well as an other news of national importance. Another new attraction for Clearfield is motorcycle polo. Not motorcycle racing, that is an old time stunt and not in keeping with the Legion idea of putting on a real entertainment. This is a game participated in by three motorcyclists and of course it will be exciting. At three o'clock the American Legion Clearfield baseball team will cross bats with their old rivals, Philadelphia.

All of the above attractions are for the price of one admission, fifty cents for adults, twenty-five for children which is certainly cheap enough. Those who stay inside the gates for the evening entertainments will also see a \$500 fireworks display, hear a wonderful concert by the Legion Band with soloists and be privileged to dance and otherwise enjoy themselves.

For the men, at 9:00 p.m. there will be twenty-six rounds of boxing by well known pugilists from around the Pittsburgh territory, all of whom are boys who are fighting for supremacy in fist circles. The lineup will be as follows: Main bout, Eddie Barland vs. Young Milligan, ten rounds; Semi Final, Jack Proviati vs. Johnny Kerk, ten, eight rounds. Opening bout, O. Ferry vs. Jack Smith, eight rounds.

NOTICE MEMBERS OF COMMERCIAL CLUB

There will be no meeting of the Commercial Club on Monday evening. The notices calling for a meeting on Monday evening, July 3rd were sent out by error.

NOTICE TO ALL FIRMS HAVING FLOATS IN THE JULY 4TH PARADE

The Parade Committee of the American Legion announces the following orders for all persons having floats in the July 4th Parade. Have your float report to William Wrigley, who will be stationed at the corner of Third and Cherry streets. The float must report between the hours of 8 and 9 o'clock on the morning of the 4th. Do not take a position until notified to do so. These instructions apply only to those persons who have not been informed by letter from the Parade Committee.

LESSON FOR JULY 2

EZEKIEL, THE WATCHMAN OF ISRAEL

LESSON TEXT—Ezekiel 1:1-3:21.
GOLDEN TEXT—Ezekiel 3:17. "The Lord
while I live may be found, call ye upon Him,
while I live; and the wicked forsake his
way, and the unrighteous man his
thoughts; and let him return unto the
Lord, and He will have mercy upon him;
and to our God, for He will abundantly
pardon.—Isa. 55:6-7.

REFERENCE MATERIAL—II Kings
17:13, 14; Isa. 6:1-13; Jer. 1:4-9; Matt. 23:
37-39; Acts 20:18-21, 26, 27, 29-31.
PRIMARY TOPIC—The Shepherd and
His Sheep.
JUNIOR TOPIC—Ezekiel Watches and
Warns Israel.
INTERMEDIATE AND SENIOR TOPIC—
Facing a Hard Task.
YOUNG PEOPLE'S AND ADULT TOPIC—
The Duty of Warning Others.

I. Ezekiel's Call (vv. 1, 2).
1. Commanded to Stand Up (v. 1).
Ezekiel was given a vision of the Al-
mighty God on His throne of glory
(ch. 1). Before the vision the prophet
fell prostrate upon his face. The es-
sential equipment of a minister for the
discharge of his task is a vision of the
Almighty.
2. Filled With the Spirit (v. 2). By
the Spirit the divine energy entered
him and enabled him to execute the
commission given to him.
II. Ezekiel's Commission (vv. 3-6).
1. The Moral Condition of the People
(vv. 3, 4). (1) A rebellious nation
(v. 3). This rebelliousness perhaps re-
ferred to their heathen idolatrous prac-
tices. (2) Impudent children (v. 4).
"Impudent" literally means "hard of
face." It means the grossest perversity
which caused them to stand up in the
presence of the prophets of God
without a sense of guilt or compunc-
tion of conscience.
2. The Charge (v. 4). He was to de-
liver the message of God. He was to
declare, "Thus saith the Lord God."
3. The Difficulty of His Task (vv. 6-8).
He was to deliver the message of
God whether they would hear or fore-
bear.

III. Ezekiel's Experimental Qualifi-
cations (2:9-3:18).

Before one can preach to others he
must have an experience—must be in
sympathetic accord with God and His
message.

1. Eating the Book (2:9-3:9). This
book contained God's words upon the
stiff-necked and rebellious people (v.
10). In order to speak God's threaten-
ings effectively to others we must in-
wardly digest and appropriate them
ourselves. The eating of the book was
inwardly mouth as honey for sweetness.
Though his ministry was difficult and
the judgment severe, the prophet was
in entire sympathy with God's pur-
pose and found delight in His will.
2. Urged on by the Spirit (8:10-14).
In order to strengthen Ezekiel for his
task, the wonderful symbolism of
God's providential agencies which had
been before him in chapter 1 was
brought to his attention, assuring him
that God would accompany him to his
new destination.
3. Entering into Sympathy (v. 15).
In order to minister to a people one
must enter into sympathy with them;
must show that the message is from
the depth of the heart; that to declare
the message of God is a great grief.
Ezekiel mingled his tears with theirs.
IV. Ezekiel's Grave Responsibility
(3:17-21).

God made him a watchman. Every
minister is a watchman over his flock.
Two things were required of him:
1. To Hear the Word at God's
Mouth. The source of his message
was God's Word. So today the minis-
ter is to get his message from God.
2. Sound the Warning (v. 17). After
he heard God's message he was to
speak it out. The same duty is upon
the minister today. Cases in point for
his guidance (vv. 18-21):

(1) When God says to the wicked
"Thou shalt surely die" (v. 18), and
the watchman fails to warn him, the
wicked man shall die in his iniquity,
but his blood shall be required at the
watchman's hand.

(2) If the watchman warn the wick-
ed and the warning is unheeded (v.
19), the wicked man shall perish, but
the watchman has delivered his soul.

(3) When a righteous man turns to
do iniquity and God gives him over to
stumbling in his own sin, his past
seeming righteousness will be of no
avail, but his blood will be required at
the hand of the watchman if he fail to
warn him (v. 20).

(4) If the watchman so warns the
righteous man that he fall not into sin,
the man shall be saved and the watch-
man hath delivered his soul.

Ministers have most solemn obliga-
tions, that of discharging their obliga-
tion whether men will hear or fore-
bear.

The Wise Shall Understand.
Many shall be purified and made
white, and tried; but the wicked shall
be wickedly; and none of the wicked
shall understand; but the wise shall
understand.—Daniel 12:10.

Being Wise.
It is better to be wise and not to
seem so, than to seem wise and not to
be so.—Plato.

Honest Error.
Honest error is to be pitied, not
ridiculed.—Chesterfield.

Important Habits.
Next to the habit of saving, in im-
portance, is the habit of getting.—Day-
ton News.

ODDS AND ENDS AND THINGS

By J. D. C.

Off hand one would be apt to answer the question: Do you get your talent from your father or mother?

by the somewhat Irish reply, from both. But there are authorities which affirm that one or other parent predominates invariably in the offspring.

It isn't philosophical to say that the daughters of every house show more of the paternal traits than the maternal, but the truth of this is frequently borne out by experience, and the cleverest men in harking back to the sources of their cleverness, which has made them successful in any line are apt to tell you these are found in their mothers.

Therefore, without attempting to write a scientific treatise that would hold water in the schools (as if one was ever written that did) some common sense opinions, based on witnessed facts, are at least worth looking at.

And one of these is the broad statement that Samuel Vauclain, president of the Baldwin Locomotive works, has frequently made and is always willing to repeat. It is that in his contact with employment the first thing he wants to know about man or youth applying for a job is what kind of a mother he has.

"I care nothing about the father," said Mr. Vauclain, "and make no inquiries as to him. Let him be what he will he seldom, if ever, transmits the predominant character to his offspring. In a word, the paternal parent of a boy is negligible."

"But the mother is a different thing. If she is careful, saving, smart, if she has brought up her children to see the necessity of order if she has urged them to educate themselves and at the same time to cultivate character, then I know her sons are just the material every manufacturer needs. I rely on the worth of this product."

A young woman who has made a very careful study of heredity and whose own trait would seem to be drawn from her great-grandfather, a noted publicist in his day, holds exactly the opposite opinion. She said:

"Unless the father is to an extraordinary degree weaker in will and intellect than the mother, and even in such painful conditions it would seem

to me to be absurd to believe that all traits predominating in the offspring are derived from the distaff side. This would be attributing to nature qualities of discrimination and elimination that so far as I have read nature has never shown.

"In so many cases of unfortunate marriages where there has been progeny the mother seeks, and is compelled to seek, every means of education, precept and example to uproot bad qualities that have descended from the father. Sometimes a devoted mother succeeds in her purpose. Very often her labors go for naught.

"This conclusion may not be philosophy, but it is based on experience and not conjecture.

"Why, if the contrary opinion were true and should be carried out to a legitimate conclusion, what kind of a race of males would be produced by humanity? If they drew more and more from the feminine the final result would be the utter destruction of man, or we would have a state of things like the bees where but one is required to fecundate the hive.

In spite of the sureness of conviction of this speaker the history of many of the geniuses of the world

MARRIAGES

ROBERTS—LUMADUE

A very pretty wedding was solemnized at the home of Mr. and Mrs. Milton Lumadue, on the old Jackson Homestead, near Woodland, Pa., on June 28th, when their beautiful and accomplished daughter, Isabella, became the bride of Mr. Nelson Roberts, one of the city and capital young men of Woodland.

The beautiful and impressive ceremony of the United Brethren Church was held by the pastor, Rev. F. E. Styer, the bride being preceded at high noon, in the presence of relatives and friends. Mr. and Mrs. Roberts are both members of the United Brethren Church and are interested in all that makes for its advancement.

Mrs. Roberts has been employed for three and one-half years by the Woodland Pharmacy and will be missed at the old stand by her employer and the public whom she so faithfully served. Mr. Roberts is an employee of the Harrison-Walker Refractor Co.

The newly-weds left Wednesday afternoon by automobile for an extended wedding trip. On their trip they expect to visit New York City and other eastern cities. They will spend some time with the bridegroom's parents at Port Jarvis, N. J. After their return they will be located in their own home, recently purchased from Mr. Harry Reed, occupying one of the prominent sites on our main thoroughfare.

Guy Passmore, of Philipsburg, passing in his car, saw the boy struggling in the water and jumped in to his rescue. He got the little fellow out in an unconscious condition and strenuous first aid measures alone resulted in saving his life. The boy remained unconscious until Wednesday but is now improving apace.

"Start Mines, Resume Conferences," Harding Edict

OTHERWISE GOVERNMENT WILL RESORT TO METHOD WHICH WILL PROTECT THE PUBLIC AND FORCE FULL SETTLEMENT

Suggests A Resumption Of Mining Industry At
Once, Then A Secret Conference With Ogle
Presiding, Greene As Secretary And Three
Cabinet Members Present.

SPEECH SHORT AND TO THE POINT

Washington, D. C., July 1.—President Harding today called upon the striking miners and the coal operators of the country to resume mining operations at once and then adjust their differences in general conferences.

Speaking before about fifty chieftains of the United Mine Workers of America and leading coal operators at the White House, the President issued an emphatic warning to the warring factions that unless the strike is soon terminated the Federal Government, in the public interest, will exert all its vast powers to force a settlement.

Settlement Must Be Permanent.

The President said that the interests of the people must be protected and that the Government proposes to take steps toward that end unless the strike is ended through general conferences. Harding also declared that a permanent solution of the frequent strikes in the industrial world must be found. "For has the right, capital has the right and above all else the American public has the right to be freed from these recurring anxieties, no matter what the causes are," said the President. The President made an appeal that operations be resumed pending adjustment of the dispute.

Plan Of Conference Suggested.

The President suggested that future mine and operator conferences be held in secret, stating that he would assume full responsibility for such a course. He also suggested that the conferences be held at the Department of the Interior, that A. M. Ogle, President of the National Coal Association, should preside as Chairman, and that William Greene, of the United Mine Workers, should act as Secretary, also that Secretaries Hoover, Fall and Davis should sit in the conferences as representatives of the Government.

EXCEPTIONAL RACE CARD OFFERED FOR TRACK FANS HERE

An exceptional race program has been arranged for Clearfield's Biggest Fourth and although time for entries does not close until Monday July 3 at 6 P. M. more horses will start in each race than has been seen in races at Clearfield in many a day. The Legion has made every endeavor to get the best horses in Clearfield on the Fourth and a survey of the list of entries to date shows they have been very successful.

The races will be called at 1:45 P. M. sharp and include a 222 trot, a 225 pace and a special 3-year old class mixed. The last race has been added since the publication of the original program and promises to be very interesting.

Union Trotting Association rules will be in force. W. T. A. Official starter D. D. Guppy will tell 'em when to go; and the other officials are as follows: A. L. Kline, Fred B. Leavy and James Fletcher, Judges; L. E. Jameson and L. A. Banta, Timekeepers.

LIGHTNING HITS AUTOMOBILE

During an electrical storm which passed over the Houtzdale region about 2 o'clock this afternoon lightning struck the steering wheel of a Reo automobile belonging to the Beal Garage at Philipsburg while the car was traveling the State Road near Sterling between Osceola and Houtzdale. The bolt hit the steering wheel of the car burning the arm of the driver and setting fire to the car which was totally destroyed despite the efforts of the Houtzdale Fire Co. to save it.

M'DEVITT NAMED PHILA. JUDGE BY GOVERNOR SPROUL

Harry S. McDevitt, secretary to Governor Sproul was appointed yesterday by the Governor to fill the vacancy on the bench of Common Pleas Court No. 1 caused by the resignation of Judge John M. Patterson. The Governor announced Mr. McDevitt's appointment at Harrisburg. At the same time he announced that he had appointed James F. McCoy, a former newspaper man of this city, as his secretary to succeed McDevitt. Mr. Sproul said he had also commissioned Judge William H. Shoemaker, senior member of Common Pleas Court No. 1, as President Judge of that Court. Mr. McDevitt was born in Philadelphia April 17, 1885. He will be one of the youngest judges in the Philadelphia Courts. He was graduated from the Central High School in 1905. After leaving the high school he engaged in newspaper work until 1913, when he was admitted to the bar. He had studied law while pursuing his reportorial duties. Mr. McDevitt had been a political

TOO EARLY FOR ACCURATE FIGURES

The strike of 400,000 railway shop men got under way today when many employees remained away from their jobs in advance of the official hour set for the walk-out, ten o'clock A. M.

Eleventh hour efforts of the United States Railway Labor Board failed to avert the strike. A number of railroad shops were ordered closed today, including the Pullman Shops at Pullman, Illinois.

The shop men's grievance is based upon the wage cuts ordered by the Labor Board, eliminating of overtime for Sundays and holidays and the action of the railroads in trying to evade Labor Board orders favorable to the workers.

The great Pullman Shops in South Chicago, employing normally 10,000 men, were operating this morning with only a few men.

LOCAL MEN OUT

The boiler makers, machinists and their helpers in the local New York Central Yards, walked out this morning in accordance with the general strike order. On account of the slack industrial conditions here incident to the coal strike, but about thirty-five men were directly affected by the walk-out the remainder of the shops force having been laid off previously. The strike locally is 100 per cent effective.

Effective at Pittsburgh

Pittsburgh, Pa., July 1.—The railroad shopmen's strike was generally effective in and around Pittsburgh today. Five thousand men left their posts. The B. & O. Glenwood shop went down 100%, 2,500 men going out. At the Fort Wayne shops of the Pennsylvania every union man left his work. The Pitcairn shop of the Pennsylvania went down 90%. The Hook shops of the P. & W. Va., also went down 100%.

On the other hand few men left the McKees Rocks shops of the P. & L. E. employees there claiming they are members of the American Federation of Railroad Workers, an independent organization, and that they do not consider themselves bound by the strike call. In a statement today the Pennsylvania Railroad Company announced that the strike was effective in Canton, Ohio, Erie and Oil City, Pa., Olean and Buffalo, N. Y.

Scranton Men Out

Scranton, Pa., July 1.—Shop men employed by the Lackawanna Railroad in this city complied with the strike order today. 1,800 men are affected by the walk-out in this section.

Only 35 Out at Altoona

Altoona, Pa., July 1.—Thirty-five men in the shops of this district walked out here today. It is expected that others will follow, but it is impossible to classify them today. It is not thought that the shops here will be hampered by the walk-out on account of working agreements between the Pennsylvania Railroad and its employees.

Conemaugh One Third Out

Johnstown, Pa., July 1.—Only fifty-six men out of the two hundred and sixty shop men employ in the Conemaugh shops responded to the strike call this morning and only two men on the South Fork Branch went out.

Chicago Hardest Hit

Chicago, Ill., July 1.—400,000 rail-

road shop workers were added to the nation's unemployed today when they went on strike against wage reductions.

Promptly on the stroke of ten workers dropped their tools. All shops in Chicago, the largest strike center in the country were closed. 100,000 men it was estimated by union heads, went on strike here. Guards appeared as the men left their work and were prepared to protect railroad property.

New York Congested

New York, N. Y., July 1.—The rail road strike today caused great congestion in the big New York railway terminals. Through trains were not affected but suburban traffic was disrupted as there were no men on hand to couple up the cars. Dense crowds of people trying to get out of town for the week-end jammed the Grand Central Station.

Albany Reports

Albany, N. Y., July 1.—The strike of the railroad shops craft men got under way here today when a number of the mechanics in the round house of the New York Central dropped their tools and walked out.

Pittsburgh B. & O. Out

Pittsburgh, Pa., July 1.—2,500 employees of the Glenwood shops of the B. & O. railroad joined the nationwide shopmen's strike today.

Philadelphia Not Hit

Philadelphia, Pa., July 1.—Twenty car cleaners who laid down their tools in the West Philadelphia yards are the only ones that answered to the strike call on the Pennsylvania here, it was announced. Their places were immediately filled. Officials are doubtful as to the number that will go out during the day.

At Harrisburg

Harrisburg, July 1.—Eighty-five per cent of the union shopmen in the Harrisburg district dropped their tools in response to the strike call, according to the count of union leaders here. There are some 3,000 men involved in this district which includes shops at Enola, Marysville, Harrisburg, Rutherford and Lancaster.

Columbus Men March

Columbus, Ohio, July 1.—Three thousand shop workers of the Pennsylvania and Hoeking Valley Railroads laid down their tools and marched through the business district of Columbus to headquarters.

Lansdale, Pa., July 1.—"Dick", a huge mastiff was snatched from death today. "Dick" was convicted of a crime, which carried the death penalty. His master, James Silverman, who is a Russian, had never been naturalized and under the laws of the State of Pennsylvania aliens are not allowed to keep dogs. S. Confer, Dick's attorney, made a plea before Magistrate Borsay today for Dick's life, asking that the law be set aside in this case and the dog is enjoying a respite at least until a decision in the case is handed down.

MEN'S BIBLE CLASS OF WEST SIDE HOLD BANQUET AT CAMP

The Men's Bible Class of the West Side Methodist church, with their wives and invited guests to the total number of one hundred and seventy-four persons, held its monthly meeting at the handsome and commodious Crystal Springs camp last evening. Weather conditions were ideal, and aside from the fact that the road was like the Road to Jordan—a hard one to travel—nothing was lacking to make the evening one of genuine pleasure and enjoyment.

Camp Chief Weed and his estimable wife, with the assistance of a competent committee of local women provided a most appetizing dinner for the assemblage, each and every one of which did ample justice to the good things set before them.

When the inner man had been thoroughly satisfied, Rev. Armstrong who was the busiest man at the gathering, marshaled the crowd into the spacious lobby and soon had the business meeting under way. Rev. Armstrong read the report for the month, which made a fine showing for the Class stating that no less than six members of the class had attended every session thus far during 1922.

At the completion of the business session Rev. Armstrong announced a brief program of exercises which was opened by Victor K. Meredith with a pleasing solo, with Miss Myra Shaw at the piano. Mr. Meredith acknowledged a vociferous encore with the "Swanee River," which was also very highly appreciated by his hearers.

J. D. Connelly, a guest of the class, was impressed into service and delivered a brief address in which he spoke of the activities of this class and the great good they had accomplished in the community.

Prof. Oscar W. Schaeffer's orchestra, a West Side church institution, then favored with a pretty selection, after which a pair of Gold Dust twins in the persons of Messrs Flaherty and Johnson put on a really worth while black face comedy sketch which was very well received and added new laurels to the reputation of these very capable performers.

A selection by the orchestra brought the program to a close and the party embarked in their automobiles for the ten mile ride over the mountains back to their homes.

It was indeed an enjoyable occasion and very much enjoyed by those fortunate enough to be present.

MANAGER GIBSON RESIGNS

Manager George Gibson of the Pittsburgh Pirates, since 1920 unexpectedly announced his resignation to his players yesterday afternoon after having lost an important series of games which it is said brought criticism from President Dreyfuss of the Pirates. William McKechnie, assistant manager was immediately advanced to Gibby's post.

FIRST BIG EVENT FOR TUESDAY IS THE STREET PARADE WHICH WILL MOVE OVER PRINCIPAL STREETS PROMPTLY AT TEN

From That Time On There Will Be Something
Doing Every Minute Of The Day Until A
Late Hour In The Evening—Come Early And
Stay Late To Enjoy Biggest Fourth Of July.

EIGHT BANDS WILL BE IN LINE ALL DAY

Windy Smith and Hank Cole aviators arrived here this morning and while calling at The Progress office announced that they were ready to take passengers on flights this evening, all day tomorrow and Monday. The round trip flight is \$11. Call at the "Howstew" Aviation Field on the old Roessner farm. A percentage of the receipts go to the American Legion.

One glance at the double page spread advertisement of the American Legion in yesterday's Progress was enough to satisfy most anybody that this energetic organization means business next Tuesday when they expect to furnish Independence Day fun for all comers. From 7:30 o'clock in the morning until nearly midnight there will be something doing every minute. At the aforesaid hour, the American Legion rooms here will be thrown open as celebration headquarters and a happy reunion of ex-service men will take place from that hour until ten o'clock. In the meantime, no less than fifty business firms will be putting the finishing touches on the most wonderful floats ever seen on parade here and dashing military men will be galloping un and down streets whipping the big parade into line.

At two o'clock there will be communication with the outside world by means of radio with correct and baseball scores as well as an other news of national importance.

Another new attraction for Clearfield is motorcycle polo. Not motorcycle racing, that is an old time stunt and not in keeping with the Legion idea of putting on a real entertainment. This is a game participated in by three motorcyclists and of course it will be exciting.

At three o'clock the American Legion Clearfield baseball team will cross bats with their old rivals, Philipsburg.

All of the above attractions are for the price of one admission, fifty cents for adults, twenty-five for children which is certainly cheap enough.

Those who stay inside the gates for the evening entertainments will also see a \$500 fireworks display, hear a wonderful concert by the Legion Band with soloists and be privileged to dance and otherwise enjoy themselves.

For the men, at 9:00 p. m. there will be twenty-six rounds of boxing by well known pugilists from around the Pittsburgh territory, all of whom are boys who are fighting for supremacy in fist circles. The fight will be as follows: Main bout, Eddie Barland vs. Young Milligan, ten rounds; Semi Final, Jack Proviati vs. Johnny Kere, ten, eight rounds. Opening bout, O. Ferry vs. Jack Smith, eight rounds.

NOTICE MEMBERS OF COMMERCIAL CLUB

There will be no meeting of the Commercial Club on Monday evening. The notices calling for a meeting on Monday evening, July 3rd were sent out by error.

It is expected that the parade will be over by noon so that those who

LESSON FOR JULY 2

EZEKIEL, THE WATCHMAN OF ISRAEL

LESSON TEXT—Ezekiel 3:1-21.
GOLDEN TEXT—Ezekiel 3:1-21. The Lord while He may be found, call ye upon Him, while He is near; let the wicked forsake his way, and the unrighteous man his thoughts; and let him return unto the Lord, and He will have mercy upon him; and to our God, for He will abundantly pardon.—Isa. 55:6-7.

REFERENCE MATERIAL—II Kings 17:13, 14; Isa. 6:1-13; Jer. 1:4-9; Matt. 23:37-39; Acts 20:18-21, 26, 27, 29-31.
PRIMARY TOPIC—The Shepherd and His Sheep.
JUNIOR TOPIC—Ezekiel Watches and Warns Israel.
INTERMEDIATE AND SENIOR TOPIC—Facing a Hard Task.
YOUNG PEOPLE'S AND ADULT TOPIC—The Duty of Warning Others.

I. Ezekiel's Call (vv. 1, 2).
1. Commanded to Stand Up (v. 1). Ezekiel was given a vision of the Almighty God on His throne of glory (ch. 1). Before the vision the prophet fell prostrate upon his face. The essential equipment of a minister for the discharge of his task is a vision of the Almighty.
2. Filled With the Spirit (v. 2). By the Spirit the divine energy entered him and enabled him to execute the commission given to him.
II. Ezekiel's Commission (vv. 3-6).
1. The Moral Condition of the People (vv. 3, 4). (1) A rebellious nation (v. 3). This rebelliousness perhaps referred to their heathen idolatrous practices. (2) Impudent children (v. 4). "Impudent" literally means "hard of face." It means the grossest perversity which caused them to stand up in the presence of the prophets of God without a sense of guilt or compunction of conscience.
2. The Charge (v. 4). He was to deliver the message of God. He was to declare, "Thus saith the Lord God."
3. The Difficulty of His Task (vv. 6-8). He was to deliver the message of God whether they would hear or forbear.

III. Ezekiel's Experimental Qualifications (2:9-3:18).

Before one can preach to others he must have an experience—must be in sympathetic accord with God and His message.

1. Eating the Book (2:9-3:9). This book contained God's words upon the stiff-necked and rebellious people (v. 10). In order to speak God's threatenings effectively to others we must inwardly digest and appropriate them ourselves. The eating of the book was in his mouth as honey for sweetness. Though his ministry was difficult and the judgment severe, the prophet was in entire sympathy with God's purpose and found delight in His will.

2. Urged on by the Spirit (8:10-14). In order to strengthen Ezekiel for his task, the wonderful symbolism of God's providential agencies which had been before him in chapter 1 was brought to his attention, assuring him that God would accompany him to his new destination.

3. Entering into Sympathy (v. 15). In order to minister to a people one must enter into sympathy with them; must show that the message is from the depth of the heart; that to declare the message of God is a great grief. Ezekiel mingled his tears with theirs.

IV. Ezekiel's Grave Responsibility (3:17-21).

God made him a watchman. Every minister is a watchman over his flock. Two things were required of him:

1. To Hear the Word at God's Mouth. The source of his message was God's Word. So today the minister is to get his message from God.

2. Sound the Warning (v. 17). After he heard God's message he was to speak it out. The same duty is upon the minister today. Cases in point for his guidance (vv. 18-21):

(1) When God says to the wicked "Thou shalt surely die" (v. 18), and the watchman fails to warn him, the wicked man shall die in his iniquity, but his blood shall be required at the watchman's hand.

(2) If the watchman warn the wicked and the warning is unheeded (v. 19), the wicked man shall perish, but the watchman has delivered his soul.

(3) When a righteous man turns to do iniquity and God gives him over to stumbling in his own sin, his past seeming righteousness will be of no avail, but his blood will be required at the hand of the watchman if he fail to warn him (v. 20).

(4) If the watchman so warns the righteous man that he fall not into sin, the man shall be saved and the watchman hath delivered his soul.

Ministers have most solemn obligations, that of discharging their obligation whether men will hear or forbear.

The Wise Shall Understand.
Many shall be purified and made white, and tried; but the wicked shall be wickedly; and none of the wicked shall understand; but the wise shall understand.—Daniel 12:10.

Being Wise.
It is better to be wise and not to seem so, than to seem wise and not to be so.—Plato.

Honest Error.
Honest error is to be pitied, not ridiculed.—Chesterfield.

Important Habits.
Next to the habit of saving, in importance, is the habit of getting.—Dayton News.

**FIXING WATCHES
OR CLOCKS RIGHT**

Of course most any one can
"fix" a watch or clock but the
real art in the profession is
fixing them right and so they'll
run and keep perfect time.

We are doing that very thing
every day—fixing watches and
clocks so that they will stay fixed
and keep as good time as the
day you bought them.

If you have a watch that is
running wild or if you have a
clock that you have grown to
like and it won't run, bring either
here and we will put them in
shape they should be in.

ODDS AND ENDS AND THINGS

By J. D. C.

Off hand one would be apt to answer the question: Do you get your talent from your father or mother?

by the somewhat Irish reply, from both. But there are authorities which affirm that one or other parent predominates invariably in the offspring.

It isn't philosophical to say that the daughters of every house show more of the paternal traits than the maternal, but the truth of this is frequently borne out by experience, and the cleverest men in harking back to the sources of their cleverness, which has made them successful in any line are apt to tell you these are found in their mothers.

Therefore, without attempting to write a scientific treatise that would hold water in the schools (as if one was ever written that did) some common sense opinions, based on witnessed facts, are at least worth looking at.

And one of these is the broad statement that Samuel Vauclain, president of the Baldwin Locomotive works, has frequently made and is always willing to repeat. It is that in his contact with employment the first thing he wants to know about man or youth applying for a job is what kind of a mother he has.

"I care nothing about the father," said Mr. Vauclain, "and make no inquiries as to him. Let him be what he will he seldom, if ever, transmits the predominant character to his offspring. In a word, the paternal parent of a boy is negligible."

"But the mother is a different thing. If she is careful, saving, smart, if she has brought up her children to see the necessity of order if she has urged them to educate themselves and at the same time to cultivate character, then I know her sons are just the material every manufacturer needs. I rely on the worth of this product."

A young woman who has made a very careful study of heredity and whose own trait would seem to be drawn from her great-grandfather, a noted publicist in his day, holds exactly the opposite opinion. She said:

"Unless the father is to an extraordinary degree weaker in will and intellect than the mother, and even in such painful conditions it would seem

to me to be absurd to believe that all traits predominating in the offspring are derived from the distaff side. This would be attributing to nature qualities of discrimination and elimination that so far as I have read nature has never shown.

"In so many cases of unfortunate marriages where there has been progeny the mother seeks, and is compelled to seek, every means of education, precept and example to uproot bad qualities that have descended from the father. Sometimes a devoted mother succeeds in her purpose. Very often her labors go for naught.

"This conclusion may not be philosophy, but it is based on experience and not conjecture.

"Why, if the contrary opinion were true and should be carried out to a legitimate conclusion, what kind of a race of males would be produced by humanity? If they drew more and more from the feminine the final result would be the utter destruction of man, or we would have a state of things like the bees where but one is required to fecundate the hive.

In spite of the sureness of conviction of this speaker the history of many of the geniuses of the world

The total of Liberty Loan and Victory Bond issues during the war was approximately \$26,000,000,000. It was calculated that if paid off at the rate of a billion a year we might be free by 1917. This without counting on any payments on the \$11,000,000,000 Europe owes this country, a large portion of which it has been recognized is unlikely ever to be paid.

It is only three years since the Victory Bond issue, May, 1919, and the latest figures indicate that has already been wiped out. (\$3,000,000,000 of our war debt.)

There is now outstanding only about \$17,500,000,000 of the nearly \$26,000,000,000 issued. But against this over eight billions reduction the treasury has out notes and certificates amounting to \$3,500,000,000, so that the net reduction in our war debt has been \$5,000,000,000, or almost twice as much as originally calculated likely in three years. This is so much better than expected that credit will be freely given to the federal financial management.

If the advertising experts keep on improving in their art, eating is going to be popularized with the human race. Every few days the advertisers rescue some humble food stuff from obscurity.

The raisin seemed to need no discovering. It formed the hub to mother's big, white cookies; it converted boiled rice into rice pudding; it was the chief fruit in "fruit" cake. It was oftener purloined from the high cupboard than the proverbial jam.

But the advertising man seized upon the lowly raisin and promoted it to a confection. How it came about is told by Wylie M. Giffen, president of the California Associated Raisin Company. There were too many raisins—that is, too many for the regular market that the raisin growers had formerly furnished. Then the advertising expert proposed enlightening the nation concerning the surpassing food value of raisins. When enough folks had been persuaded that their constitutions would warp, check and open up at joints unless reinforced with iron, and that California raisins were perfect little iron mines, the raisin crop was taken care of. The people of the United States rushed up to the candy counters and carried away 17,000 tons of raisins in nickel packages.

The grape fruit was the old maid of the citrus family until advertising made it popular. The orange growers, through their association by national advertising, have increased their incomes millions of dollars. They kept telling the people the road to health. It seems everyone wants to get well if the process demands no more than eating something that is pretty palatable anyway.

And as the idea of organization takes and spreads among the growers of food stuffs, the practice of advertising is bound to extend. What revelations are in store for us. Soon we shall know why we have kept healthy all these years eating potatoes and beef steak with a side of stewed corn. We shall gain a new respect for boiled cabbage because we shall know all about the calories and vitamins and whatnot.

The process has advanced now to the point where there is a battle among the common articles of diet for supremacy. The milk dealers are proving that a pint of their product is worth pounds of other foods. Cheese is making its high claims. Soon the advertisers will be boosting the goober and the white oak acorn. It is all good business. It adds a good deal to the zest of eating to hold firmly to the conviction that every mouthful is a portion of health and every movement of the jaws is a progress toward physical perfection.

Prachhua, Pa., July 1—Babe Ruth hit his ninth home run of the season in the early inning of today's game between the New York Yankees and the Athletics. The drive was made off of Ed. Rummel, Connie Mack's pitching ace.

By HENRY L. FARRELL

United Press Sports Editor

New York, July 1 (United Press)—Wellington Cross, Babe Ruth's vaudeville partner, recently told some California friends a number of interesting "behind the scenes" observations about the Swat King.

Ruth according to Cross, has a highly attuned nervous system that leads him to relieve himself of surplus activity by spending money. He has gone through several small fortunes and has no more idea about the value of money than a high school boy. He was making \$2,250 a week on the Keith circuit and he spent nearly every cent of it. His favorite diversion was buying boxes and boxes of the most expensive cigars and leaving them in the hotels behind him.

The great slugger is a piker fiend and he is no home run hitter with the clubs. He is always being taken and yet is patted on the back and told that the next time he will start him back.

He had a terrible time losing his lines. In that he resembled many actors, but in no way does Cross say he was entirely different from a stage performer—he was always on fire for his act and he didn't give a hang whether he got an ovation or the contrary.

Be that as it may, he is on time for his appointment, he has no patience with anyone who is late, and he keeps a tight rein on his own time.

When he was in Washington the

manager of the theatre arranged an audience with President Harding.

The President was about ten minutes late in calling them in from the waiting room, and the Rum didn't seem to care that some important duty might be demanded the attention of the chief executive. He became more and more puffed at the delay and when they were finally called into the chamber, he was on a grudge.

The President said he was glad to meet Ruth and remarked: "That was quite a sentence, Judge Landis gave you 'H' to do."

"Yes, I didn't care. What?" the president asked.

RED MEN GET COLD FEET

The Red Men were scheduled to meet the Hillsdale Bear Cubs on the Reedsville grounds last evening in a community Service League game, but the wily ones of the forest failed to put in an appearance and Hillsdale got their scalp by default.

The Reedsville Wild Cat then offered them claws for the slaughter and the Hill dalers were promptly "ate up".

"\$16.50" TAILORED SUITS

A disinterested party, who read the account of the "\$16.50 tailored suits" for which orders were taken in DuBois recently, was in Butler yesterday and thought he would make an investigation of "125 S. This party found that his number was occupied by a ladies furnishing store, so that it is presumed that the parties who placed orders for the \$16.50 tailored suits, will soon receive a ladies suit, provided Melrose & Company who are the ladies' outfitters at this address, will recognize the orders taken for this number.

The young people acquitted themselves very creditably and in a manner which spoke volume for the thoroughness of Mrs. Rowle's instruction.

MARRIAGES

ROBERTS—LUMADUE

A very pretty wedding was solemnized at the home of Mr. and Mrs. Milton Lumadue, on the old Jackson Homestead, near Woodland, Pa., on June 28th, when their beautiful and accomplished daughter, Isabella, became the bride of Mr. Nelson Roberts, one of the city and capital young men of Woodland.

The beautiful and impressive ceremony of the United Brethren Church was held by the pastor, Rev. F. E. Stayer, the bride being attended at high noon, in the presence of relatives and friends. Mr. and Mrs. Roberts are both members of the United Brethren Church and are interested in all that makes for its advancement.

Mrs. Roberts has been employed for three and one-half years by the Woodland Pharmacy and will be missed at the old stand by her employer and the public whom she so faithfully served. Mr. Roberts is an employee of the Harrison-Walker Refractor Co.

The newly-weds left Wednesday afternoon by automobile for an extended wedding trip. On their trip they expect to visit New York City and other eastern cities. They will spend some time with the bridegroom's parents at Port Jervis, N. J. After their return they will be located in their own home, recently purchased from Mr. Harry Reed, occupying one of the prominent sites on our main thoroughfare.

The best wishes of their many friends accompany them.

ANNOUNCES MARRIAGE OF DAUGHTER

Mrs. Emma L. Morris, a former resident of Clearfield, announces the marriage of her daughter, Helen, to Mr. Charles Nelson Bell, on Thursday, the first day of June, 1922, Long Beach, California.

NARROW ESCAPE FROM DROWNING

Robert Waring, five year old son of Mr. and Mrs. T. L. Waring, of Morrisdale, had a narrow escape from drowning in the dam at Lake Side Park on Monday last. Little Robert, in company with two other Morrisdale boys, stole away to the lake to fish. Robert decided to go in swimming and promptly got beyond his depth. Guy Passmore, of Philipsburg, passing in his car, saw the boy struggling in the water and jumped in to his rescue. He got the little fellow out in an unconscious condition and strenuous first aid measures alone resulted in saving his life. The boy remained unconscious until Wednesday but is now improving apace.

HARDING, GUEST OF GETTYSBURG TODAY

Gettysburg, Pa., July 1.—Welcomed by the Governors of three States the President of the United States will visit Camp Harding and will spend the fifty-ninth anniversary on the battle field sleeping under canvas surrounded by thousands of soldiers. At the invitation of Governor Sprout of Maryland, and Governor Lee Trinkle of Virginia will join with Governor Sprout in forming a gubernatorial committee to welcome the President when he arrives late this afternoon by motor from Washington.

GIVE YOUR EYES A CHANCE

You're taking care of every other part of your body but the thing that's most important to you. You are probably abusing your eyes every day by going without glasses when you really need them. Let me examine your eyes and show you how cheaply I can protect this most important sense, your sight.

Gossip For Tonight's Tea Table

Miss Margaret Helen Phillips who is a playground teacher at Rossiter, Pa., will arrive home this evening to spend the 4th with her parents, Mr. and Mrs. W. E. Phillips.

New York N. Y., July 1.—Early reports of the railroad strike were not sufficiently definite to give any indication of the number of men obeying the strike order. The action of the stock market indicated that Wall Street was not agitating itself, although the attendance was reduced because of the general emigration to the country over the week end and there was a firm demand for stocks. Ratification by President Obregon of the Mexican debt agreement did not have much effect on oil Mexican Petroleum held it around 177 1/2 a point above yesterday's close and 1/2 above the low of that day.

RAISING ONE LEGGED CHICKENS

Robert Morgan, of Glen Ridge, who is the Poultry Editor of the Progress, that an obliging old hen in his poultry yard hatched him out a one legged chicken yesterday. The single footed youngster is, hale and hearty despite his lack of running gear. Bob says the "one-leggedger" was hatched out of an egg his brother sent him from Scotland to try out. There are no fences or chicken yards in the Heilan's of Scotland where Bob's folks hail from and in order to protect their gardens the Clin Morgan has developed a breed of one legged chickens guaranteed not to kick the stuffin' out of the neighbor's garden and they are spreading rapidly over Scotland. Bob is booking orders for this new breed.

DIRECTOR DAVIS REVIEWS RESULTS OF HAYNES RULE

Reviewing the progress of the commission under Haynes' administration, Director John T. Davis, in his public statement, said that only 262, 133, 333 gallons of whiskey were with drawn as compared with 94, 061, 223 gallons in previous years and 16, 111, 30, 92 gallons of alcohol and other distilled spirits with drawn as compared with 258, 033, 101, 101 with drawn the previous year, that 1,216 cases were reported by general prohibition agents amounting to \$2, 159, 110. 9 were recommended and fine penalties amounting to \$17, 102, 144 were imposed. Three and one half million dollars worth of bonded ware placed in unsecured magazines. Reduction in rentals and disposition of real property in the amount of \$20, 000 were effected and in additional saving of \$17, 000 other reductions effected. Under the new laws 2, 145 violations were reported resulting in 1, 100 convictions and \$61, 038 in fines and penalties.

Narcotics commission report on recent work. Enforcement work has been very satisfactory. Under the new laws a force of general agents under eighteen thousand clerks directed from Washington decided, a special group was directed to prepare all criminal information, indictments, judgments, trials and search warrants and concentration of criminal results in centralized files and expedition of trial. One set of report and accounts are now required for disbursement and bonded warehouse instead of three statements.

With a view to reducing the number of permits all applicants to operate a wholesale drug store are doubly checked and reports of state inspectors are verified by a committee of his and pharmacist manufacturers and whole dealers are required to submit monthly a statement of sales, are checked in manufacture and directly proof of a true and fair percentage of sales to prevent fraudulent withdrawal.

Legislation has given the Commission authority to erect into a federal number of warehouses, all Federal stores, new warehouses, and warehouses, which will effect a large saving in money and mitigate the financial sources other than with the Federal Government.

An outstanding feature of the administration is the machine being
